

# Dear NC Legislators,

Don't give Duke and Progress Energy Corporations a blank check for Annual Rate Hikes for risky power plants.

Those rate hikes would dramatically drive up electricity bills year after year for our seniors, families, schools, towns and small businesses. This would cost us jobs.

Duke and Progress Energy Corporations want legislators to pass an Annual Rate Hikes Bill that would force consumers to pay years in advance to build financially risky nuclear power plants. Even Wall Street won't gamble its money on those projects.

**Stand up for consumers  
by opposing any  
Annual Rate Hikes  
legislation.**

**CONSUMERS**  
★AGAINST★  
**RATE HIKES**
